

POWERSELECT, INC.

PS20U15K-24

Universal Input DC Power Supply

Input Specifications

- Wide input voltage (Universal Input 105-300Vac) 24W Max.
- Frequency 50/60Hz
- High Power Factor (>90%)
- Inrush Current Limited to 5A Max.
- Thermal shutdown with auto-restart
- High Efficiency (>80%)

Output Specifications

- 24VDC +/- 5% Constant Voltage
- 750mA, 18-Watt Maximum
- Open-circuit & short-circuit protected with auto-restart
- Minimum Load 1 Watt
- Overload Protected
- Output distance limited to 5 feet.

Mechanical & Environmental

- UL Listed power unit, File E362033
- Enclosure Dimensions 2.41L x 1.47W x 1.52H
- Operating Temperature -30°C to 90°C
- Flexible Polyurethane encapsulation.
- Anodized aluminum extrusion.
- Retractable mounting feet
